EQUIPMENT FINANCING & LEASING • NEW AND USED

Put the Equipment to Work Now. Pay for It Over Time.

Buying new or used equipment? Equipment financing spreads the cost over a fixed term so your cash stays free for payroll, inventory and growth. We match your purchase with the lender best suited to the equipment and the size of the deal.

Everyday Equipment

Trucks, kitchens, technology, medical and shop equipment. Terms typically 12 to 72 months, with a $1 buyout lease, a fair market value lease, or an equipment finance agreement.

Large-Ticket Equipment: $250,000 to $300 Million

For manufacturers, developers, hospitals, labs, energy, construction and transportation fleets. Through our large-ticket lender partners:

- New **or qualified used** equipment — including imported and multi-vendor purchases;
- Installation, software, freight and other eligible soft costs can be included;
- Terms typically 18 to 72 months, built around your cash flow;
- Projects of $5 million and up can use progress payments, milestone draws and interest-only periods during installation.

How It Works

1. **Complete the attached Schedule A.**
   List every item you are buying, the vendor, and the purchase price from your quote.
2. **Email it, with the vendor quote, to info@wfa.cash.**
   Or call Athena at (602) 905-2066 — she will take your application any time.
3. **Get your decision.**
   Underwriting reviews the equipment and your business, then presents your terms. Your vendor is paid directly.

We Finance America, Inc. is a commercial loan placement advisory company, not a lender. This is not an offer to lend or extend credit. All programs, amounts and asset eligibility are subject to lender underwriting and approval.

SCHEDULE A INSTRUCTIONS • READ BEFORE YOU LIST YOUR EQUIPMENT

Filling In Your Equipment Schedule

- **Make, Model, Year** — exactly as shown on your vendor's quote.
- **S/N / VIN** — if you have it yet. For new equipment the vendor can supply it later.
- **New / Used** — check one.
- **Type** — check one.
- **Condition** — for used equipment only. Leave blank for new.
- **Vendor / Dealer** — who you are buying it from.
- **Purchase Price** — the price on the quote, including any installation, freight or software you want financed.
- **Location** — the city and state where the equipment will be installed or kept.

Not All Equipment Qualifies

The lender reviews each item — its value, useful life, and whether there is a broad resale market for it. Equipment that holds its value and is easy to resell earns the strongest terms. List every item on the attached Schedule A so underwriting can review your whole purchase at once.

Buying used? Value matters.

Lenders finance used equipment based on what it is worth on the open market — what a dealer or another business would pay for it today — not just the asking price. Equipment with a broad resale market is the easiest to finance.

Already own paid-off equipment?

A sale-leaseback can turn it into working capital — $250,000 to $30 million — while you keep using it. See wfa.cash/equipment-sale-leaseback.

I certify this Schedule A is complete and accurate to the best of my knowledge and lists every item to be financed. I understand that not all equipment will qualify and that approval and terms are determined solely by the lender's underwriting. I authorize We Finance America to contact me by phone and email about this request.
